

"Therefore, the urgency, the super-conscious, or the conscience,
which is based upon past memory patterns, is substantially decreased."

Dictated material of Dr. Waltmann

"For those oriented in the philosophies, such finite insignificance
represents itself in significant possibilities for individual
expansion. One philosophic observance of this may know or say, as
Shankara, that the person is not only a part of Parabrahm, but he
is identical with the whole of Parabrahm." Ibid. p 19
