chapter X

The Path of the World-Saviours.

(General type of answers to questions for use of class-teachers.)

1. Nirvikalpa Samadhi is the Liberation of Fearless Consciousness.
   It is the full Liberation and is very difficult of attainment
   especially in this Iron Age or Kali Yuga. It is inconceivable to
   Consciousness moving in terms of form. It is the fruit of many
   incarnations of effort along the Path.

2. The Liberation of Fearless Consciousness.

3. Omniscience is one of the greatest rewards of Yoga.

4. Renunciation is the letting go of limitation. This is true of
   the renunciations which the student of the Path toward Spiritual
   Realization has to face. The great renunciation of the Nirman-
   kayas on the other hand is real as it involves the letting-go of
   the fruits of Liberation for service.

5. The Dharmakaya vesture.

6. "The Voice of the Silence." (Students should study this and
   state briefly what they find on the subject), quoted

7. (It would be well if the students memorized the words at the
   top of page 162)

8. The Nirmanakaya vesture.

9. The renunciation of the Bliss which is the fruitage of many
   incarnations of striving.

10. World-Saviours.

11. (This answer is contained largely in the sentence beginning at
    the bottom of page 163.)

12. Men to-day would be almost certainly hopelessly engulfed in
    spiritual darkness. (It is said that a planet "Lucifer" was once
    so engulfed and became destroyed by the disintegrative power of
    evil so that it now forms the belt of asteroids that lie between
    Mars and Jupiter.)

13. In the Himalayas north of India.

14. This is the Great Buddha who has appeared as a Saviour of
    men several times in the past 3500 years.

15. Bodics taken consciously as new-born babes, though this is said
    to be rare because of the time lost in bringing the new body along.
    2nd discarded though still usable bodies of others. Such bodics
    must have the right physiological development and purity. Sometimes
    child-bodies are prepared and then occupied by a Nirmanakaya whose
    old physical body is practically worn out. The truth in the doctrine
    of the "ever-living Buddha" of Northern Buddhism is coopted with
    this process. 3rd The Nirmanakaya may function in his subtle
    vesture alone thus acting as an unseen influence. Sometimes close
    association is formed with an individual soul, already incarnated,
    for a special w-.
