

I have a message for the Temple ^{members} may they have the courage, the to receive it.

My personality is the medium through which I must speak, but that personality is now very concerned with the message, and I ask that you remember this.

In an organization the polarity must be equalized if order & harmony & growth are to be. ^{In the process} Through our Central Cell, B.S., power to us the ^{outbreathing} ~~subtle~~ from the Lodge. When they draw back from the circumference, or us all, the return ~~they~~ rightfully belonging to them - they receive it not.

Straight through the Temple Rank to run the willingness to take what is true, & through pain & sacrifice

2) given them for their upliftment. How many give all they can of their kind of wealth in return. How many devote either money or time or effort to build the Master's work? Rather they receive as a matter of fact & pay no heed to deep inner laws of giving, much less do they "give and do likewise" - give even tho' it ~~cost~~ be pain & sacrifice to do. There are some who give their all - even to their ^{his} life if need be and as - the giving of ^{his} Life & Life brought actual crucifixion to the Master Jesus - it also brought - The Resurrection Body. ~~was~~ If only our members ship could awake to the opportunity lying before them ungrasped if only they could awake! - But And the other side of that is that they must pay

3 in full for all unused opportunities. Thus
life is so short, so fraught power to
accomplish & we permit the forces
of the Beast to engulf us.
