B Ethnologically race division based on external characters

Theory of race unfoldment.

B History of the Earth and of man tied together.

1. Earth changes and cataclysms due to man primarily

2. Duration of Earth the period of evolution of man.

C. Evolution of man governed by the law of cycles *[Time circulates as matter]*

1. The stream of humanity circles the Earth chain seven

times. *[Idea of quanta apply to development of man]*  
2. On each round it manifests through 7 major or Root

aces

a. Each root race manifests thru seven sub-races

These in turn thru still finer subdivisions.

D. Each corresponding round, race and sub-race unfold a corresponding

sense and power.

1. Key to this found in the seven-fold constitution of man

*(Age 1,000,000 years)*

*Refer to evidence in cycle from matter to energy and back again*

*Power of recapitulation*

*Refer to certain series aspects of future evolution*

1. Being a principle of balance it will reflect itself as a tendency toward a balance of power between the sexes.

E. The new race is progenator not only of seventh sub but by correspondences of the Sixth root.
