F.F. Wolff
Drawer F
Lone Pine, CA 93545

Dear Dr. Wolff:

Dr. Lowe, on a return from a visit with you last week, telephoned me to relay your message of your invitation to have me come for a day to see you. You have been very prominent in my consciousness for the past several months and am only too delighted to set up a time when we can meet. I am currently involved with a month long conference for therapists in the Healing Arts which concludes on Sunday, August 1st. I would be free to come to visit with you on Wednesday, August 4th. The plan would be to drive up with Dr. and Mrs. Lowe on Tuesday afternoon, August 3rd, spending the evening in Lone Pine then venturing to your home at whatever time period is most convenient for you that Wednesday.

It is my understanding that there are aspects of healing to be considered in this meeting with you. The usual interaction with me lasts anywhere from an hour and a half to two hours consisting of personal dialogue and body energy resonation/transfer work. I would consider it a privilege to share this gift with you.

I have specifically asked Dr. and Mrs. Lowe to join me in my visit with you, for I believe that they are in a unique position to share your ideas with many developing young people.

A Radiance of Love,

Brugh Joy

P.O. Drawer F
Lone Pine, Ca. 93545
July 19, 1976

Dear Dr. Joy:

We are most happy to have your letter and to know that you plan to come, and we are pleased that the Lowes will be along.

We have lately had the feeling that perhaps you would be best able to help Dr. Wolff with his present difficulty, if we could but contact you, and perhaps the Lowes could also help. Dr. Wolff's pulse has been skipping for the past year, sometimes quite badly, and I am concerned. Also, our neighbor, Lillian Sedwick, needs attention which one of you may be able to give. It seems to be an allurgy for one thing, which, some years ago, was going into gangrene. There may be trouble of a psychic nature as well as physical, and perhaps you could judge. She would be very happy if you would take her case.

The date you set would be fine, and if you would prefer to come up here for Tuesday evening for a get-together, come ahead. Gene and Lillian Sedwick are tied up with meetings at their house on Wednesday evenings, to which all are invited, if you wish to attend. I think they are currently studying the book of questions and answers to Judge's Ocean of Theosophy. I suggest, if agreeable with you, that you see Dr. Wolff Wednesday forenoon and then we can all have dinner together here. If you prefer a different set-up, I'm sure it can be arranged.

We will be most happy to have you come, not just for your help, but because we just enjoy being with you.

Yours in the Dharma,

Gertrude Wolff

Mrs. F. F. Wolff
P.O. Drawer F
Lone Pine, CA 93545

Dear Mrs. Wolff:

Just a note to confirm that the Lowes as well as myself would be delighted to join the Tuesday evening get-together as well as working with Dr. Wolff in the forenoon of Wednesday and joining you for dinner.

Another physician, Dr. Paul Brenner, who also has broken from Orthodox Medicine in order to explore alternatives to the healing process and who has had a deep desire to meet Dr. Wolff, wanted to join our group going to Lone Pine. I told him that I would first check with you to see what your feelings on the matter were and inform him accordingly. If you feel that the addition of one more person would place a stress on the primary purpose for our coming, which is to work with Dr. Wolff, I do hope you will let me know. Dr. Brenner is a healer in his own way and may be of value in the exploration with Dr. Wolff.

I would hope that any interaction with Lillian Sedwick would be spontaneous and not definitely established. My whole intention is to focus the energy for Dr. Wolff.

Lone Pine, Ca. 93545
Sept. 2, 1976

Dear Dr. Brugh: Greetings.

We are most grateful for your recent visit and your help to Dr. Wolff. He has been much better since you left, and the pulse seems seldom to be skipping. In fact, he seems to feel pretty good. He reports not having had any dreams, or at least any that he can remember.

We also much enjoyed our discussions with you. There is much food for thought. Thank you.

Do feel free to pay us a social visit whenever you wish, provided we are home. Regards to the Lowes when you see them.

Yours in the Dharma,

Gertrude Wolff

P.S. Dr. Wolff bids me add this: "The effect came a few days later and the oppression over the chest involving a sense of tiredness vanished, and I rarely pick up a miss. This has been persistent. I am not taking quinadine. After the change, we received a list of vitamins from Dr. Fred Pounds, but the change came before that. I am taking those vitamins. (Except the B complex which I've tried for a month to get, will be in in mid-Sept. - G.) I suspect the chakra treatment is what turned the trick. I rarely dream in any case."

P.O. Drawer F
Lone Pine, Calif. 93545
June 6, 1977

Dear Dr. Brugh:

We hope all is well with you.

Except for his steadily diminishing sight, Franklin is well, still has no trouble with skipping pulse, and we are grateful to you.

We were recently in the Bay Area visiting, among others, our old friends the Bullards. It was a year ago in May that our friend Bernard became ill, was in a coma for six weeks and almost died. His recovery has been slow and he is still "wading through molasses", but he exercises and walks much every day. His illness was very mysterious and they are still not sure what hit him, but they suspect a virus, and he is still far from well.

I told them about you, inasmuch as the other doctors seem to be stymied, and promised to contact you for them, for which they were grateful. They hope to come to convention Aug. 14th weekend, and while down this way, to look you up. They want to know about charges, appointment, etc. If you wish to write them directly, their address is: Mr. & Mrs. Bernard Bullard, 560 Estudillo Ave., Apt. 3, San Leandro, Ca. 94577. Or I could relay a message, if that is easier for you. I was afraid it might be something like multiple sclerosis developing, though he says with the long confinement, he lost the use of his legs.

Any time you can visit here, you are always more than welcome.

Our love and appreciation,

Gertrude Woff

Dr. Franklin Merrill-Wolff
P.O. Drawer F
Lone Pine, California 93545

Dear Doctor and Mrs. Wolff;

Just a brief note to express how much I appreciate the photograph of Dr. Wolff. It is magnificent!

The Lone Pine meeting in August was superb. The persons who had gathered with you engendered such warm feelings in me. I particularly enjoyed the dialogue on Sunday. The clarity with which Dr. Wolff is presenting the sequences surrounding death of the physical form moves me deeply - as it will many other people. The insights and the deeper knowledge surrounding the event of death are not well comprehended in the West. Somebody is going to vastly simplify both the Tibetan Books of the Dead and the Egyptian Books of the Dead - incisively and discerningly. That somebody is, in my sensing - Dr. Wolff.

A Radiance of Love,

Brugh

October 16, 1978

Dr. Brugh Joy
Sky Hi Ranch
Lucerne Valley, California

Dear Dr. Joy:

This letter is being written to inform you that I intend to go ahead with the contribution of a tape for your conference in Pacific Grove late in December. I have already produced a one hour tape concerning the process that led up to the long ananda and the apparent breakthrough of the heart center. The tape is an abstract of the whole process and does include a recapitulation of the dream. However, I find that my composition form is not as smooth as it formerly had been before the departure of Gertrude.

I would like information as to where the conference is to be held specifically as to the rooms provided for Karen and myself. I would also like the date when we are supposed to be there.

As to what has happened in my own case. I have lost completely the feeling of nausea and have been able to eat normally. I weigh each morning and the variance in weight has been very modest although there is a growing increase. The appetite has returned to normal and has continued so to the present hour.

As to the eye -- I had an operation on the 5th of October; have returned for one inspection and there will be a second inspection on the 20th. That will be the last inspection here (Phoenix). After the 20th we shall return to the ranch area.

While here I produced another tape called "Reflections of Death". It is about 55 minutes long. If you wish to come over to our place before the date of the conference we would be delighted and you could hear both these tapes and place your judgement upon them.

Thank you for the wonderful help you have rendered me.

I remain yours most sincerely,

Franklin F. Wolff

Lone Pine, CA., 93545

Dear Dr. Wolff:

I'll plan to come to Lone Pine on November 9th - late afternoon and spend a few days.

We can discuss all the questions in your letter at that time.

I'll book in at one of the motels, so please don't feel you need to prepare for me.

A Radiance of Love,

Dear Dr. Wolff:

Just a brief note to re-confirm your speaking engagement as Asilomar on Friday, December 29th at 7:30 P.M. A room has been reserved for you should you wish to arrive on the 27th or stay on after the 29th. Karen will be sharing a room with another participant and Jim will be sharing a room with you.

If you wish your books to be on sale please have your publisher ship them directly to the Asilomar Conference Grounds.

Looking forward to seeing you on the 7th of December.

A Radiance of Love,

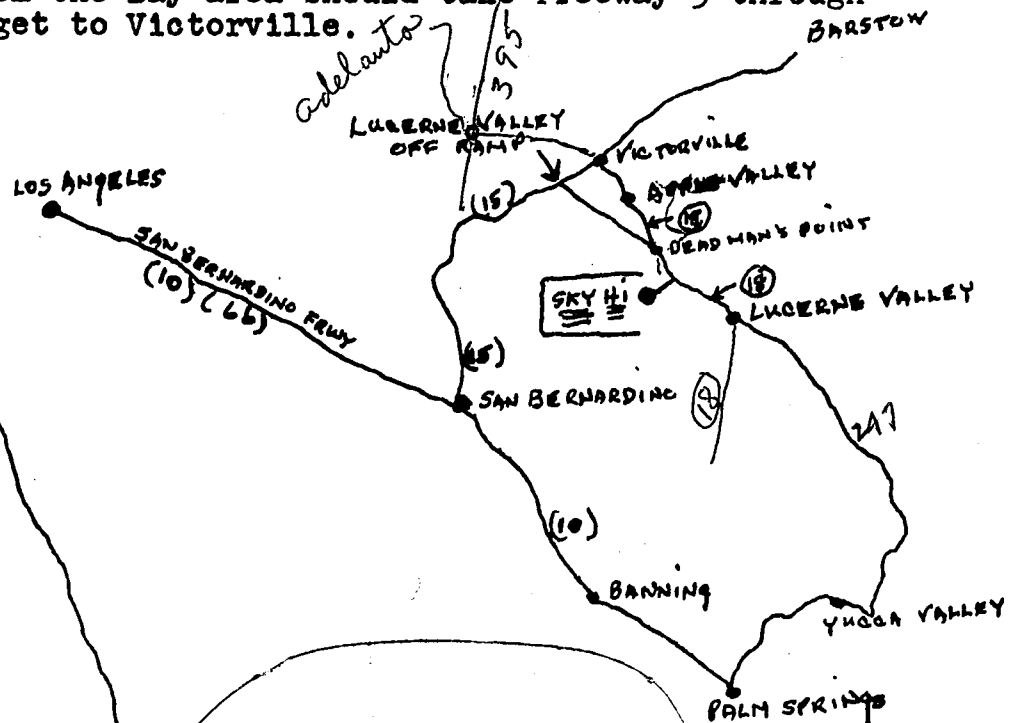

Brugh

DR. BRUGH JOY

DIRECTIONS TO THE SKY HI RANCH

From Los Angeles, head for San Bernardino taking the San Bernardino Freeway (10) (66). When you reach San Bernardino take Freeway (15 East) towards Barstow. Proceed through El Cajon Pass to the summit. Continue on towards Victorville. The third of fourth off-ramp from the summit is the Lucerne Valley turn-off (Bear Valley cut-off). Head East (right) on this road until it runs into Highway 18...about 12.5 miles. Turn Right onto Highway 18 heading towards Lucerne Valley. Go about 5.5 miles to where you see the sign to the Ranch on the left side of the road. Turn Right on this road...the only way you can turn. The Ranch is at the end of this road. If you miss the Lucerne Valley turn-off from Highway 15 out of San Bernardino, continue to Victorville and pick up Highway 18 which passes through Apple Valley on towards Lucerne Valley. The turn-off to the Ranch is about 5.5 miles from Deadman's Point on Highway 18. Those coming from San Diego should take 395 to San Bernardino then pick up on the instructions above. Those driving from the Bay area should take Freeway 5 through Bakersfield and get to Victorville.

Dr. Franklin Merrell-Wolff
Drawer F
Lone Pine, California 93545

Dear Mr. Merrell-Wolff:

Enclosed is a Xerox of Dr. W. Brugh Joy's forthcoming book, JOY'S WAY, which we will publish in February 1979. We asked Dr. Joy for the names of people to whom we might send the book for prepublication comment and he suggested that we contact you.

We believe that Brugh's book is an extraordinary document both as a biography of a man in transformation and as a description of the transformative process, and are excited to be offering these ideas to the public. We hope that you will share our feelings and that you will be able to find the time to read the book and send us a brief comment for use in our advertising and promotion.

When the book is completed we will, of course, be sending you a finished copy. We hope to hear from you soon.

Many thanks for your consideration.

With best wishes,

Jeremy P. Tarcher

Dr. Franklin Merrell-Wolff
Drawer F
Lone Pine, California 93545

Dear Dr. Wolff:

After checking my Europe itinerary, I find that I am not arriving back into the United States until the 17th of August. As disappointing as it is to miss your annual meeting, I feel that our conversation of Monday, June 25th was and is deeply meaningful. If I am able to set aside a time the 20th or 21st of August to visit with you, I shall let the secretaries know in order to find out if you will still be in Lone Pine at that time.

In great respect,

Brugh Joy

Tempe, Arizona 85383

Dear Karen:

I would be most delighted to make a statement regarding Dr. Wolff's work and influence.

"At last, from the extremely lucid and transcendent mind of Dr. Franklin Merrell-Wolff, we have the completion of his unbelievably penetrating, philosophical and spiritual endeavor represented in the second volume of The Philosophy of Consciousness Without an Object. This work represents not only an integration of Eastern and Western approaches to the understanding of consciousness, but extends our awareness into hitherto unsuspected regions. The Philosophy of Consciousness Without an Object is for all of humanity, not simply for a few who are immeshed in esoteric ramblings. For those readers who perceive its depth and scope, a majestic experience is in hand."

From all the reports regarding this summer's conference, it was a grand success. Although I was in Europe at the time, I certainly didn't have difficulty tuning in.

A Continuing Radiance of Love,

Brugh

June 24, 1980

Dr. Franklin Merrell-Wolff
Drawer F
Lone Pine, California 93545

Dear Dr. Wolff:

The Phoenix Philosophical Press sent me this copy of your second volume of The Philosophy of Consciousness Without an Object. I would be so very deeply appreciative if you would personally autograph my copy.

There have been so many moments since we last were together that your presence has flashed into my consciousness. It is not out of lack of desire of making personal contact with you that my absence has been so obvious - but rather out of a rather enormous commitment to workshops, both here in Lucerne Valley, Europe and Mexico. As I look at my schedule over the next few months, I see that I am unable to attend your annual conference in August. I will be completed with my workshop schedule following August 17th, at which time I would hope that I could clear away two to three days to visit with you in Lone Pine.

As I shall miss your actual birthday, as well as your anniversary celebration of the Illumination, may I extend my most sincere and warm wishes for your continuing service to humanity.

I appreciate you and love you very much,

Brugh

July 22, 1980

Dr. Franklin Merrell-Wolff
Drawer F
Lone Pine, California 93545

Dear Dr. Wolff:

After re-assessing my time commitments on Sunday, August 10th and Monday, August 11th, I find with the ingenious invention of the helicopter that I would still be able to attend your evening session August 10th and have an opportunity to share with you the morning of August 11th and be on my way back to the Ranch in time to meet the commitments by noon.

The helicopter service would drop me off at your Ranch between 3:30 and 4:30 your time on Sunday and pick me up for the flight back to the Ranch at 9:00 am on Monday.

The helicopter service will need your permission to land on the Ranch prior to my departure. I would envision that the helicopter could land on the dirt road to the northeast of your Ranch house.

If it is at all possible, I would appreciate if someone could take me down to the Best Western Motel for overnight accommodation and pick me up early in the morning to be able to be with you for an hour or two prior to my departure.

I am looking forward to experience your presentation and celebration.

A Continuing Radiance of Love,

Brugh
Brugh

BJ/plp

Dear Dr. Joy;

It was a delight to learn that you would be here, even for the brief time indicated.

Of course, I give permission for the Helicopter to land both times. Is a formal separate authorization required?

At present the indication is that there will be four tapes. Sunday 10:00 A.M., 3:00 P.M. and 8:00 P.M.: ON Monday 10:00 A.M. standard time. Possibly a discussion period at 3:00 P.M. or 8:00 P.M. Standard time → put in

I would very much value a talk with you.

With my highest regards and appreciation.

Frank T. Woff

It would seem best for you to land helicopter at Gene Sedwick's place. There will be someone with a car to meet you there. We will care for your transportation to ^{town.} ~~town.~~

December 19, 1983

Dr. Franklin Wolff
Drawer "F"
Lone Pine, CA 93545

Dear Dr. Wolff,

First, I wish to send to you my greetings of deepest warmth and of greatest admiration.

A decade has passed since I first met you. As I muse in the memories of our conversations together, I am filled with the sense of appreciation and awe at the strength and the depth of your Presence and for the caliber of clarity your mind brings to the mysteries of LIFE and of CONSCIOUSNESS.

In this, the final phase of your life, I realize that your capacity to transcribe direct conscious realization into the limited mode of words is undergoing reorganization and, I suspect, rightly so. Many of the past sages retired to Silence entailing the Presence of the individual to transcend the mode of intellectual communication and of thought.

From the perspective of the individual human mind, the above event is experienced as a failing or a diminishing of capacity and of power. If a man cannot communicate in the mode of the ordinary human, what good is that man to the humanity who come to exchange ideas; to suckle on the externals of a long and rich internal exploration; to propose counter theories and arguments to the compendium of knowledge and wisdom which that man has manifested in his lifetime?

Such is the perspective of the early aspirant and of the vast majority of human beings in contemporary time. Wisdom dictates differently. Your Presence makes a statement which transcends in both amplitude and frequency normal or advanced mental communication to the degree that such communication becomes nominal and insignificant in comparison. this is what I want to express to you at this time. Your words may or may not stand the test of future generations, but your Presence will!

letters

It is your Presence that teaches me when we are together and it is your Presence that will continue to teach me in the future following your physical death.

Thank you dear friend and Great Being for providing this opportunity for my spiritual growth.

Sincerely,

A handwritten signature in cursive script, appearing to read "Brugh".

William Brugh Joy, M.D., F.A.C.P. (and a simple aspirant as well)
