Dear Dr. Wolff -

Things are going better - but I am still directed to buy out our friend. I have been to the bank - interest rates are very high. I wonder, could the A of M lend me \$700 - \$1000 - at reasonable rates? I can easily afford to repay \$100 a month after October 1st, when my salary checks begin at the college.

when I've Marie comes, I will see if
she would like $\frac{1}{2}$ the bond — but
it seems to be a good time to ease
the guru's follower out of that
particular spot, while it is agreeable —

I would appreciate your thoughts
on this . . . the whole atmosphere
has lightened — but we are not out
of the woods quite yet — with BLM.

gratefully

Lucy
